

Work Health & Safety Policy

Bell Plumbing & Gas is committed to a policy enabling our work activities to be carried out safely, and with all possible measures taken to remove (or at least reduce) risks to the health, safety and welfare of workers, contractors, clients/customers, authorised visitors, and anyone else who may be affected by our operations.

This commitment extends to ensuring that our work activities do not place the local community at risk of injury, illness or property damage.

We are committed to ensuring we comply with all applicable legislation, and relevant Codes of Practice and Australian Standards as far reasonably practicable. Will provide and maintain as far as possible:

- a safe working environment
- safe systems of work
- plant and substances in safe condition
- information, instruction, training and supervision that is reasonably necessary to ensure that our workers, contractors and other relevant personnel are safe from injury and risks to health
- information that is reasonably necessary to ensure that our clients/customers and members of the public are safe from injury and risks to health as a result of our work activities
- a commitment to consult and co-operate with workers in all matters relating to health and safety in the workplace
- a commitment to continually improve our performance through effective safety management.

Our goal is to provide a safe and healthy work environment that is free from workplace injury and illness. This will only be achieved through the participation, co-operation and commitment of everyone in our workplace. We seek the co-operation of all workers, contractors, clients/customers and other persons.

We also encourage suggestions for realising our health and safety objectives to create a safe working environment with a zero incident rate.

This policy applies to all business operations and functions, including those situations where workers are required to work off-site.

*This policy will be communicated to our workers, contractors and clients.
It is also available to our customers and other interested parties via our website.*
