

Your Guide to Staying WaterWise

There are so many ways we can reduce our water usage and here are just a few:

- Regularly checking your home for water leaks
- Installing a dual flush toilet
- Switching to a WELS 3* or more rated efficient showerhead.
- Upgrading to WELS rated taps or fit flow controlled tap aerators
- Reduce sprinkling times by 2 min
- Take shorter showers
- Choose waterwise plants for your garden
- Turn off your sprinklers in the winter
- Install a greywater reuse system
- Plumb in a rainwater tank
